DETAILED ACTION

Response to Amendment

1. Applicant's amendment and remarks received 30 March 2005 have been entered and overcome the claim objection and the indefiniteness rejection cited in the previous office action.

Allowable Subject Matter

2. Claims 1-19 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: Applicant has provided a certified English translation of the priority document (European Patent Application No. 02090276.3), thereby perfecting the foreign priority claim. Applied reference of (*Arnold*, US 6,747,618) has been removed as a prior art reference.

4. Therefore, regarding independent claim 1, the prior art of record neither shows or suggests a display using a photoluminescence quenching device comprising, in addition to other limitations of the claim, an emitter layer interposed between first and second electrodes, the emitter layer receiving light projected from an excitation light source, the emitter layer emitting photoluminescence light, and the photoluminescence light from the emitter layer being controllably quenched by an electrical field formed by the first and second electrodes. Due to their dependency upon independent claim 1, claims 2-19 are also allowable.

Conclusion

5. This application is in condition for allowance except for the presence of claims 20-24 to an invention non-elected with traverse in the reply filed on 12 October 2004. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.
6. The prosecution of this case is closed except for consideration of the above matter.
